

FUEL-BACKED INVESTMENT FOR AFRICA'S ENERGY FUTURE

DieselVest Africa

A transparent platform connecting real diesel distribution
with accessible, technology-driven investment across Africa.

What's Inside

01

Introduction

The problem, the opportunity, and who we are

03

The Platform

How it works, packages, and the tools every member gets

05

The Market

Market size and what sets this apart

02

Credibility

Corporate structure, leadership, trust and security

04

The Network

Commissions, ranks, bonuses, and the representative program

06

Closing

Roadmap and how to get started

THE PROBLEM

Africa's Energy Reliability Gap

Across dozens of African markets, the power grid cannot be relied on for consistent, day-to-day electricity. Diesel isn't a backup option in these economies. It's the infrastructure businesses and households actually run on.

56 hrs

AVERAGE MONTHLY OUTAGES
Across 34 African countries in 2024

12x

GRID COLLAPSES
Nigeria's national grid, single year

"Industrial and commercial users increasingly deploy diesel generators as contingency systems to mitigate localized disruptions. High electrification does not necessarily equate to uninterrupted supply."

DieselVest Africa turns real fuel distribution into a transparent, accessible investment platform.

Every deposit connects to a real business: buying, storing, and moving diesel across Africa. Not a promise, a supply chain.

CREDIBILITY

A Real, Registered Company

DieselVest Africa is not a standalone, anonymous website. It is the operating brand of a UK-registered parent company, on public record, not a claim.

Every member-facing service, from the platform to its business cards, is delivered under DieselVest Africa. Every legal and financial obligation sits with Diamond Diesels Investments Limited.

VERIFIED RECORD

COMPANY NUMBER	07105657
D-U-N-S® NUMBER	216323664
INCORPORATED	15 December 2009
JURISDICTION	England & Wales

find-and-update.company-information.service.gov.uk
dnb.co.uk · verifiable via Dun & Bradstreet

Leadership

Evan Cooper

CHIEF EXECUTIVE OFFICER

Leads DieselVest Africa's strategy and operations, overseeing the platform's growth across African markets.

Laurus Pieter Padmos

DIRECTOR, DIAMOND DIESELS INVESTMENTS LTD.

Appointed 4 October 2023. Dutch national, based in the Netherlands. Identity independently verified.

✓ Verified via SMAILES GOLDIE ACSP (ICAEW-supervised), 15 Jan 2026

Trust & Compliance

Verification isn't an afterthought. It's built into how members join and use the platform.

1

KYC Verification

Identity documents reviewed before full account access, with a withdrawal cap in place for unverified members.

2

Admin-Gated Review

Every KYC submission is manually reviewed, not an automated rubber-stamp.

3

Director Identity Verified

Independently verified via an ICAEW-supervised authorised corporate service provider.

4

Public Corporate Record

Company registration is checkable on UK Companies House at any time, by anyone.

Security & Fund Safety

Account protection and transaction integrity are engineered in, not bolted on.

Two-Factor Authentication

Time-based one-time codes (TOTP) with backup codes, required at login.

Atomic Transactions

Balance-affecting operations are protected against double-processing, even under concurrent load.

Withdrawal Safeguards

Unverified accounts are capped on withdrawals until identity is confirmed.

Encrypted Infrastructure

Sensitive data is protected in transit and at rest across the platform.

2FA

RFC 6238 TOTP STANDARD

The same authentication standard used by major banking and enterprise platforms worldwide.

How It Works

01

Deposit

Fund your account via bank transfer or supported crypto payment gateways. \$100 minimum, the same as the Starter package.

02

Invest

Choose a package matched to your budget, from \$100 to \$50,000.

03

Earn

Receive a fixed daily return, backed by real diesel distribution activity.

04

Withdraw

No waiting period. Once you reach the \$50 minimum, request a withdrawal and it's processed within 24 hours.

Investment Packages

Four tiers, each matched to a different starting point, every deposit backed by the same real distribution activity.

STARTER 1.2% DAILY RATE MIN \$100 MAX \$999	BUSINESS 1.5% DAILY RATE MIN \$1,000 MAX \$9,999	EXECUTIVE 1.8% DAILY RATE MIN \$10,000 MAX \$24,999	ELITE 2.0% DAILY RATE MIN \$25,000 MAX \$50,000
--	---	--	--

365-day contract term across all packages. Rates reflect current platform settings.

IN PRACTICE

Your Investment, in Real Numbers

A \$1,000 deposit in the Business package, at 1.5% daily:

\$15

PER DAY

\$450

AFTER 30 DAYS

\$5,475

TOTAL EARNED OVER THE FULL 365-DAY
TERM

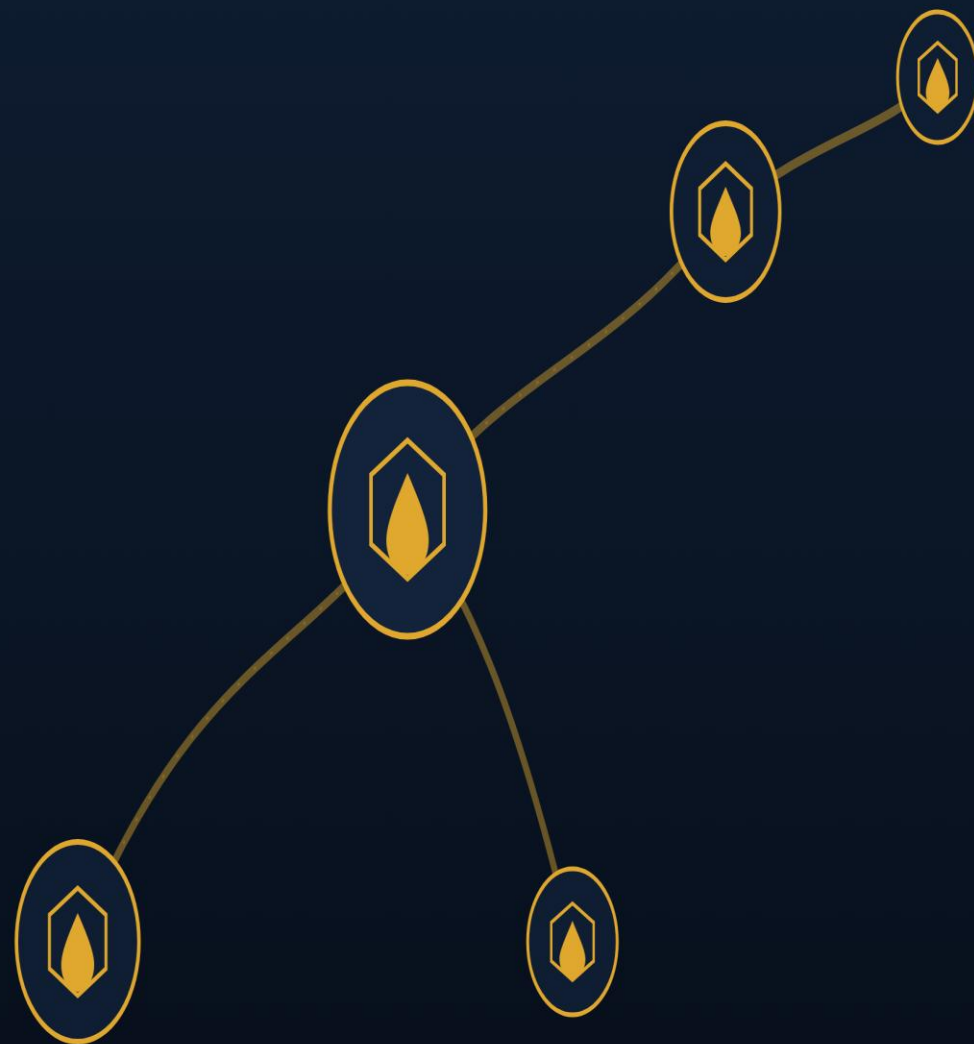

Figures are illustrative, based on current published rates, and exclude any team commission earned separately. Daily payout is a fixed simple rate, not compounded.

THE PLATFORM

What Actually Backs the Return

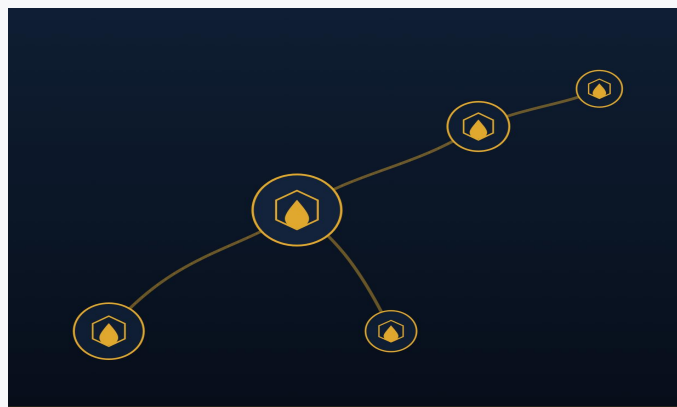

Most platforms promising a daily return are backed by nothing but new deposits. DieselVest Africa is different: every package funds real diesel purchasing, storage, and distribution activity across African markets.

That's the difference between a yield and a promise. One is tied to a business that exists, moves product, and generates revenue independent of who joins next.

The Fuel Supply Chain

The real-world activity your investment connects to, step by step.

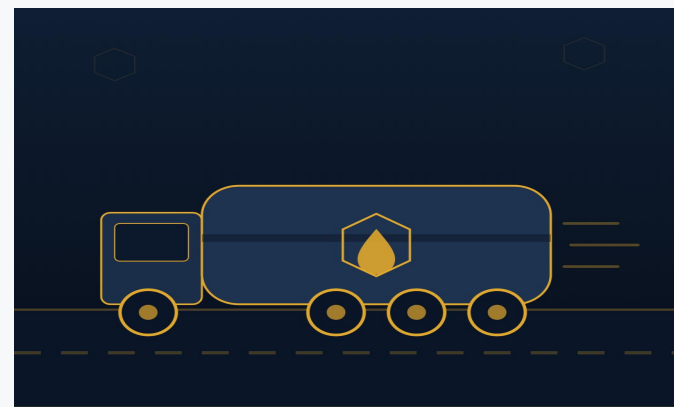

01 Sourcing

Diesel is sourced through established supply relationships and import channels.

02 Storage

Product is held in secure storage facilities, ready for distribution on demand.

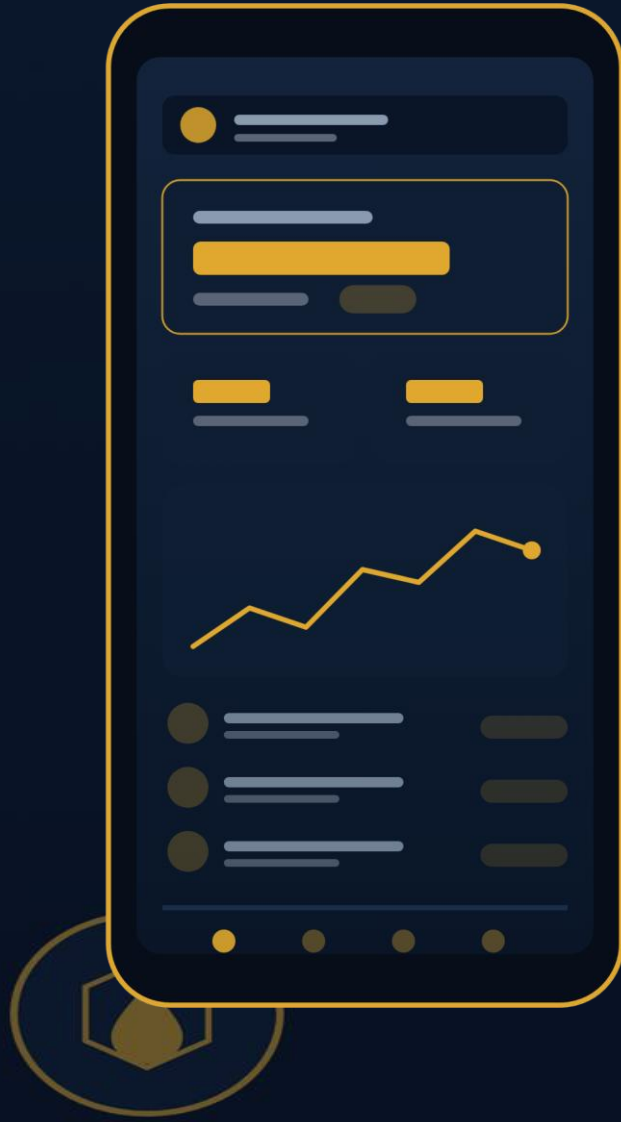

03 Distribution

Fleets move fuel to the businesses and communities that depend on it daily.

THE PLATFORM

Built for Mobile-First Africa

Live Dashboard

Real-time balance, package status, and earnings history.

Investment Tracking

Watch each package's daily earnings and contract countdown in real time.

Installable App

Add to your home screen for app-like access, no download needed.

Digital Business Cards

Every member can generate a personalised, shareable business card, built automatically from live platform data, or fully customised in their own voice. Most platforms in this space don't offer anything like it.

Auto or Custom

System-generated with live rates, or write your own tagline and message.

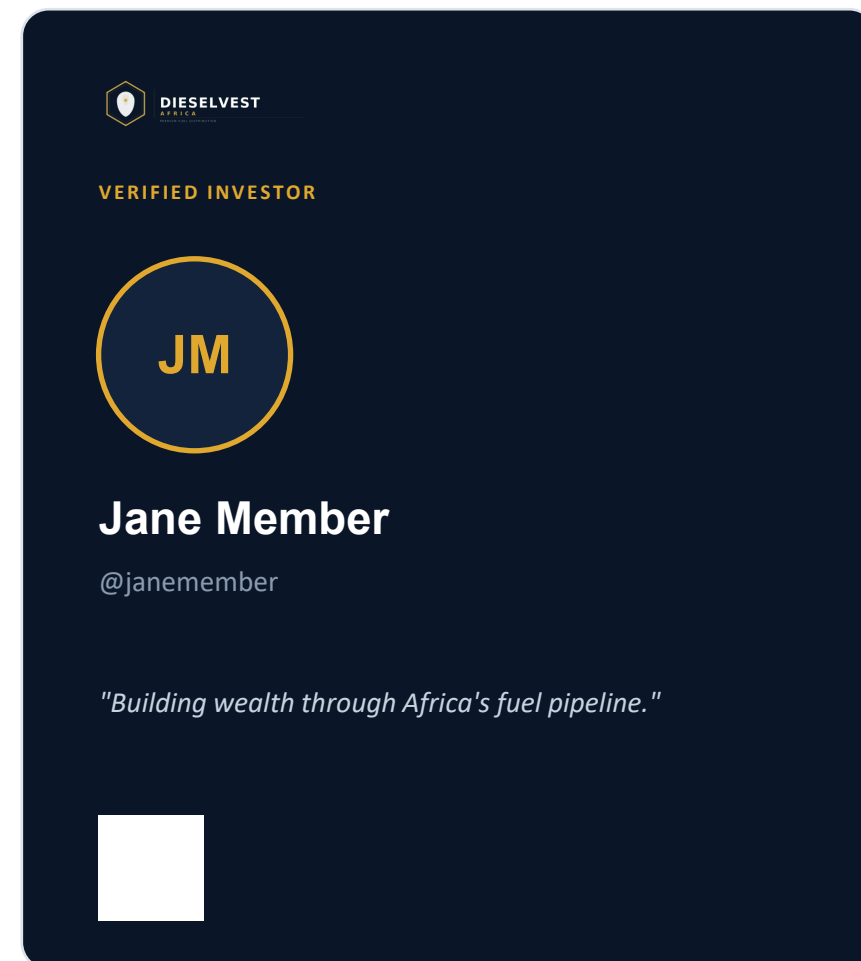

Built-In Referral QR

Every card carries a scannable link straight to the member's own signup page.

Role-Aware Content

Representatives automatically see rep-specific content, never guessed at.

THE PLATFORM

Ask Asante: Your 24/7 Guide

Every member has a built-in AI concierge, available around the clock, right inside the platform. No separate app, no waiting for support hours.

"What's my current daily return?"

"Can you generate my business card?"

"How does the unilevel structure work?"

"Who do I contact for a withdrawal issue?"

Asante

ALWAYS AVAILABLE

- Answers questions on rates, ranks, and commissions
- Detects your role, member or representative, automatically
- Can generate a business card, always confirming before it does
- Follows the same rules as the platform itself, nothing extra

THE NETWORK

Team Building & Unilevel Commissions

Earn on activity across five levels of your referred network, not just your own direct signups.

Commissions are paid on your team's investment activity as it happens. The deeper your network grows, the more levels contribute to your earnings.

IN PRACTICE

How Your Team Earns You More

If members across your first 5 levels each deposit \$1,000 in a single month:

LEVEL	RATE	\$1,000 DEPOSIT EARNS YOU
L1	10%	\$100.00
L2	5%	\$50.00
L3	3%	\$30.00
L4	2%	\$20.00
L5	1%	\$10.00

\$210

TOTAL FROM ONE ROUND
OF TEAM DEPOSITS

Illustrative example only. Actual earnings depend on real deposit activity across your network.

The Five Ranks

Two requirements, both must be met: total team litres and active directs. Reach a rank and it's yours for good.

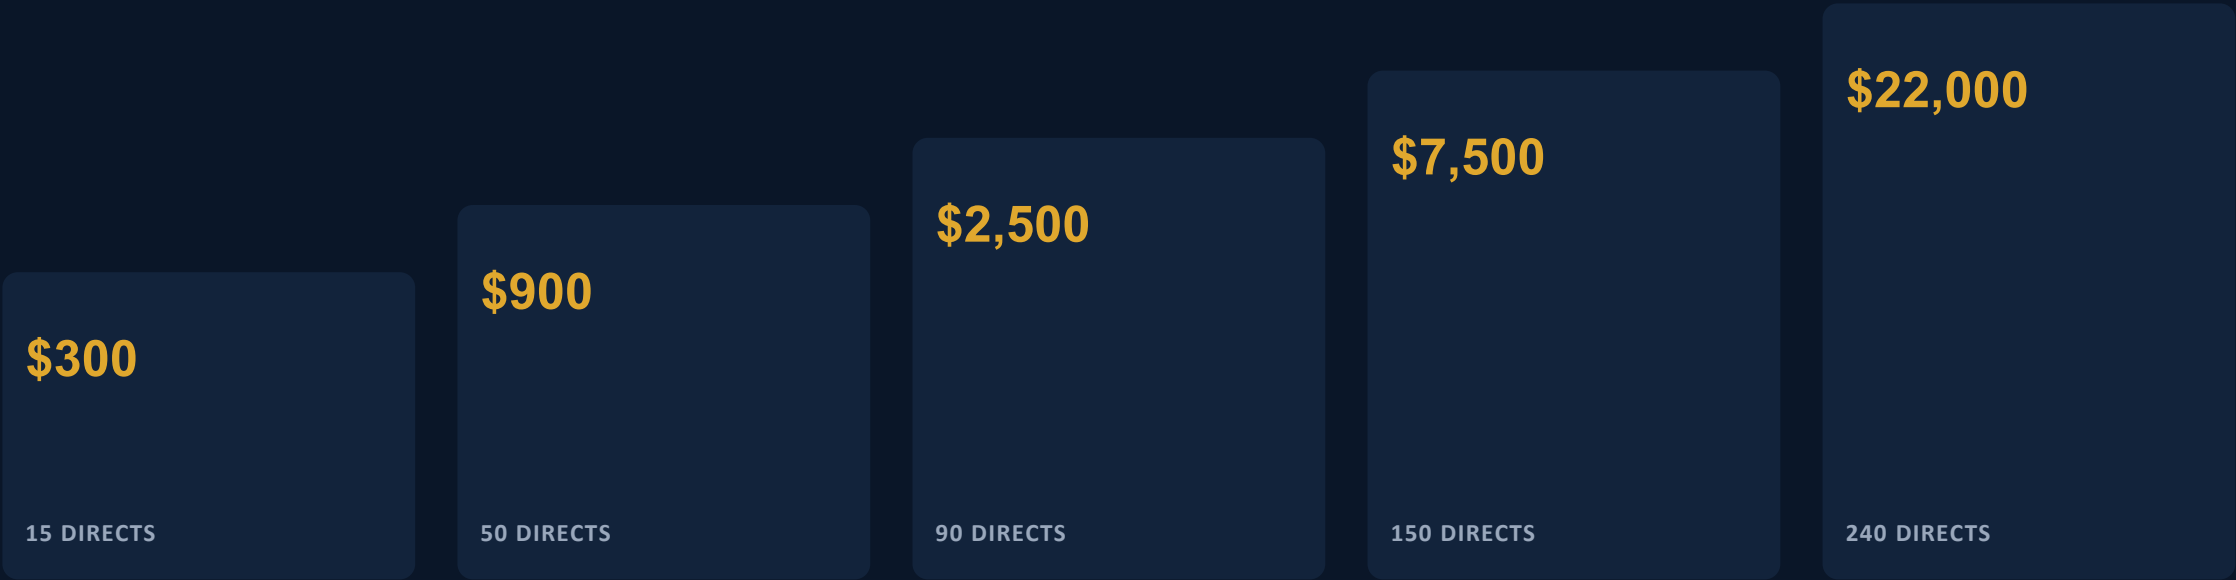

RANK		TEAM LITRES	ACTIVE DIRECTS	DAILY RANK COMMISSION
	Bronze	10,000 L	25	2.5%
	Silver	30,000 L	60	2.0%
	Gold	100,000 L	100	1.5%
	Platinum	350,000 L	160	1.0%
	Diamond	1,000,000 L	250	0.5%

PERMANENT ONCE ACHIEVED. No demotions, ever, even if your activity slows down later.

Milestone Bonuses

A one-time cash bonus paid the moment you cross each active-direct milestone, on top of everything else you're already earning.

\$33,200

TOTAL LIFETIME BONUS POTENTIAL, if you reach every milestone. Stacks fully with your daily rank commission and unilevel earnings.

Four Income Streams, Running at the Same Time

1

Personal ROI

1.2% to 2.0% daily

On your own package. Every investor, every day.

2

Unilevel Commission

10% / 5% / 3% / 2% / 1%

On purchases across your first 5 levels.

3

Rank Commission

2.5% down to 0.5% daily

On your direct referrals' ROI, once ranked.

4

Milestone Bonuses

Up to \$33,200 total

One-time cash, paid as you hit each direct-count milestone.

These aren't alternatives to choose between. A ranked member with an active team earns from all four at once, every single day.

The Representative Program

Representatives are the platform's regional facilitators: real people, in your own area, who help members deposit, understand the platform, and get started with confidence. Every member deals with a person first, an app second.

Credit-Based Facilitation

Reps hold credits and process deposits directly: fast, local, and personal, without waiting on a payment gateway.

Regional Presence

Each rep is assigned to a province and country, so members always have a genuine local point of contact, not a call centre.

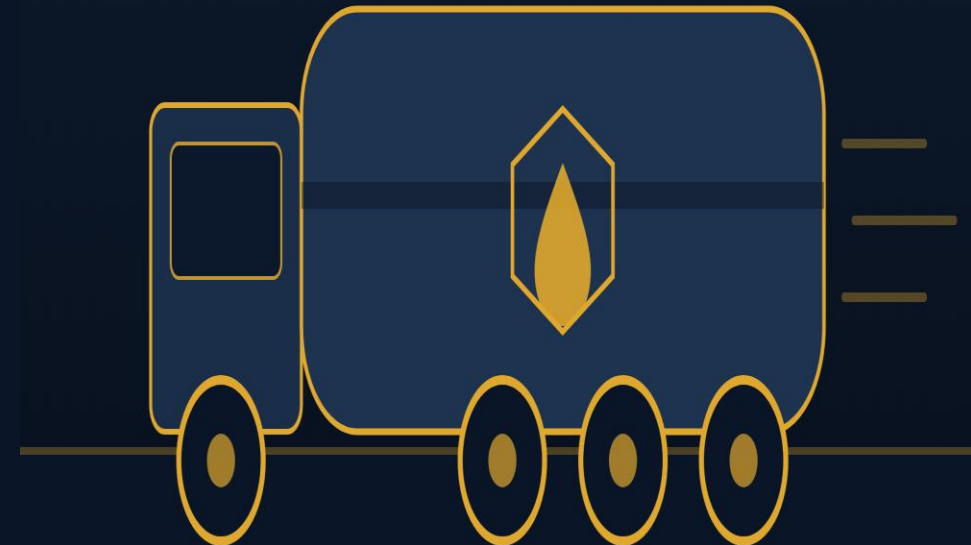

Everyday Trust, Face to Face

For members who trust a person over an app, a rep is the relationship that makes the platform feel safe to use.

Their Own Business Card

Reps get an auto-generated card with rep-specific messaging, distinct from a member's, built for regional outreach.

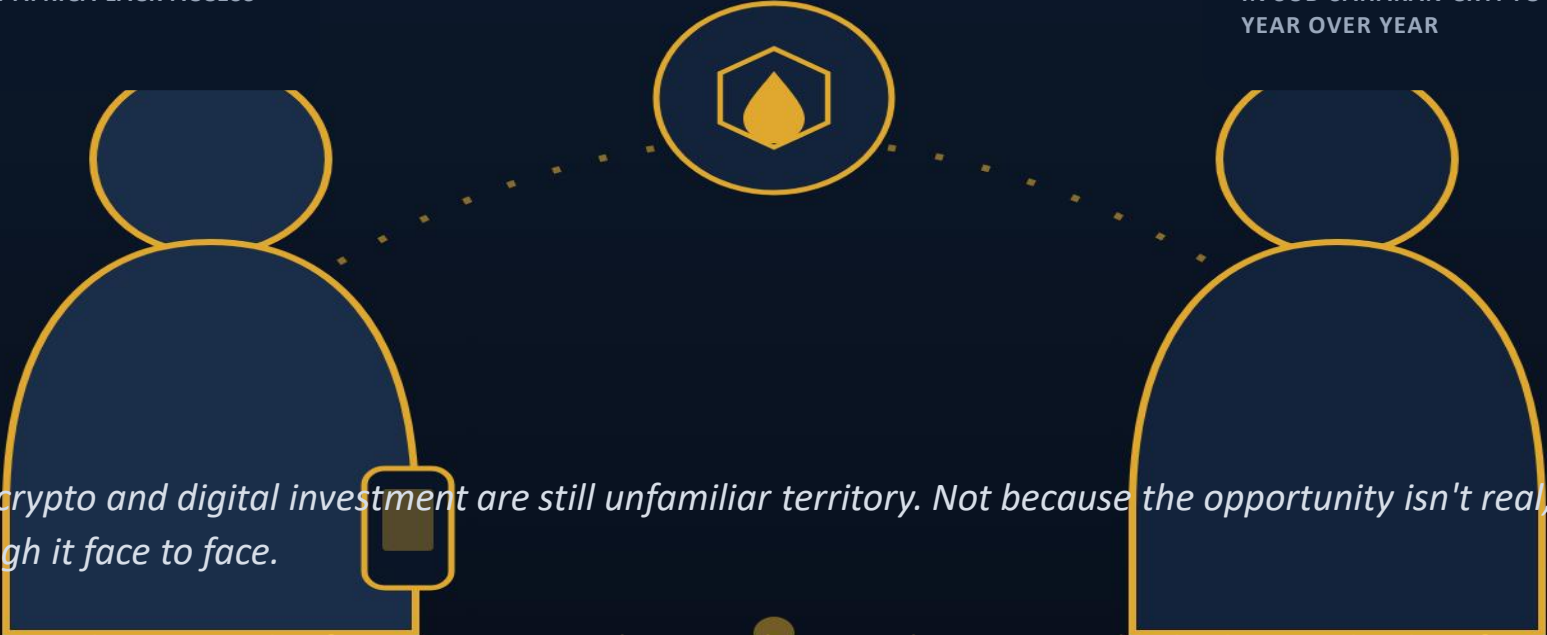

The Real Bridge to Financial Access

57%

OF ADULTS IN SUB-SAHARAN AFRICA LACK ACCESS
TO TRADITIONAL BANKING

\$205B

IN SUB-SAHARAN CRYPTO TRANSACTIONS, UP 52%
YEAR OVER YEAR

For millions of people, crypto and digital investment are still unfamiliar territory. Not because the opportunity isn't real, but because no one has walked them through it face to face.

That's what a representative does: sit with a first-time user, explain it in their own language, and help them make their first deposit with confidence, turning a global opportunity into a personal, local one.

THE MARKET

A Market Ready for This Platform

1B+

Mobile money wallets across 43
African markets

49%

Of Sub-Saharan adults now own a
financial account, up from 23% in
2011

3rd

Fastest-growing crypto region in the
world, behind only APAC and Latin
America

#2

Nigeria's global rank in
cryptocurrency adoption

What Sets This Apart

	DIESELVEST AFRICA	TYPICAL SCHEME
Backed by a real, moving business		
UK-registered parent company, publicly verifiable		
KYC verification & 2FA account security		
Built-in AI concierge for every member		
Local representative support in your region		

"Typical scheme" reflects common industry patterns, not any specific competitor.
DIESELVEST AFRICA

Roadmap

1

NOW

Core platform live: packages, unilevel commissions, KYC, 2FA, digital business cards, and Asante.

2

NEXT

Deeper representative tooling and expanded payment coverage across more markets.

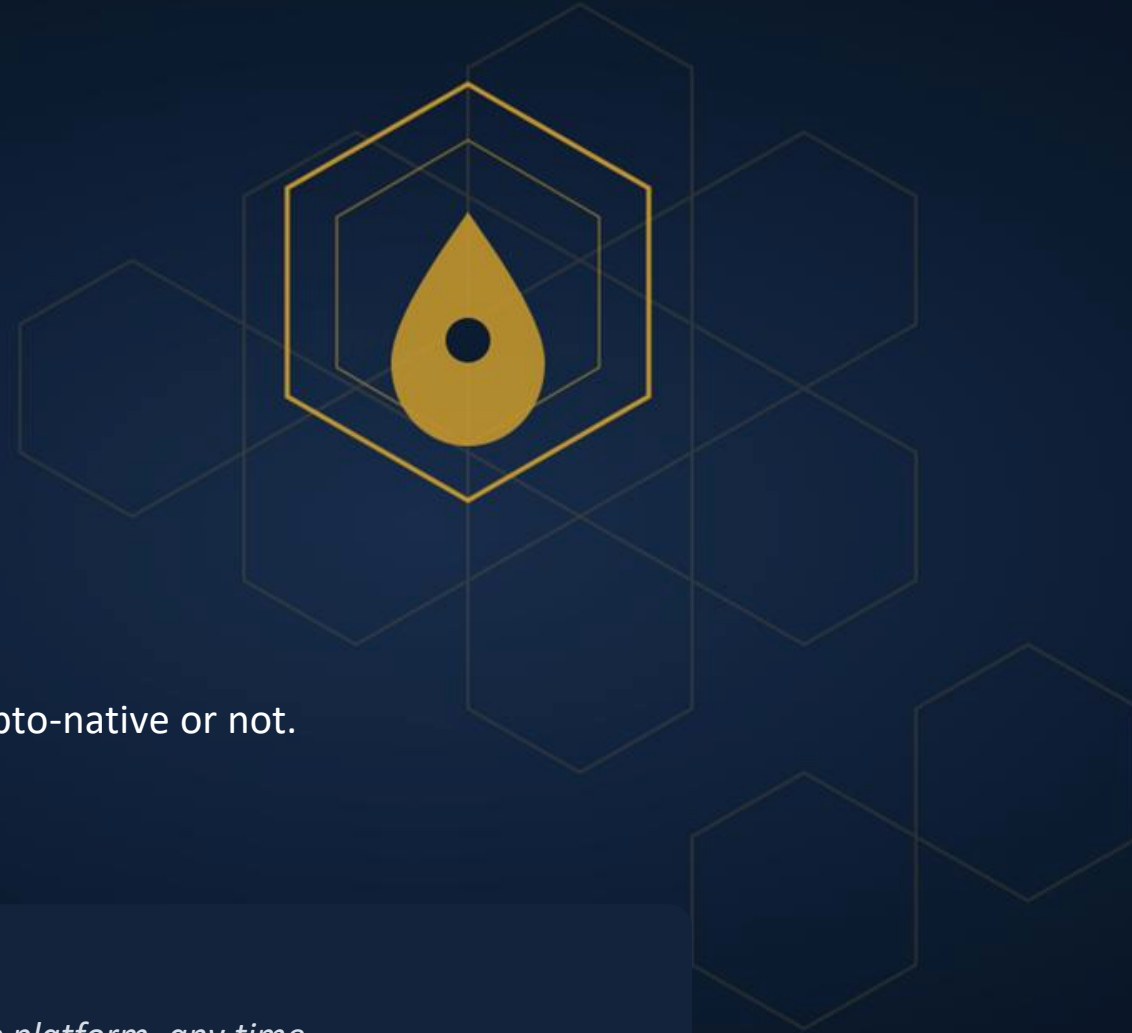

3

AHEAD

Broader regional expansion and new ways to bring the fuel supply chain closer to every member.

WHY DIESELVEST AFRICA

- A real, UK-registered company, not an anonymous website.
- Returns tied to a real fuel distribution business, not new deposits.
- Security and verification built in from day one.
- A local human network that makes this accessible to everyone, crypto-native or not.

Questions along the way? Ask Asante, available right inside the platform, any time.
