

BECOME A REPRESENTATIVE

Bring DieselVest Africa To Your Community

Help people you already know access real investment opportunities, guide them with confidence, and earn a real commission for every sale you make. 💰

What Is a Representative, Really? 🤔

Forget the formal title for a second. A Representative is simply a trusted person in a specific area, someone people already know and feel comfortable with, who helps them understand DieselVest Africa and get started the right way.

You're not selling something abstract. You're the friendly, familiar face that makes this feel real, local, and safe to try. 💛

Help people locally

Answer questions, walk people through their first deposit, be the person they can actually talk to.

Sell fuel credits directly

At \$1.00 per credit, simple and transparent.

Earn a real commission

5% on every sale, paid straight to you.

NO PRESSURE, EVER

How People Find You

When someone signs up on DieselVest Africa, they can choose a Representative near their city or province, and reps close to them are shown first. If they pick you, that's it, you're now on their radar. 

This is not a lock-in

Being connected to you this way is just location, nothing more. They're always free to buy from any rep they like, even a different one. There's no pressure on them, and no false promise made to you.

They become YOUR customer when...

...they actually buy fuel credits from you. That's the real moment, and it's when your commission starts. Everything before that is just a warm introduction waiting to happen.

You'll Always Know Who to Reach Out To

Two simple pages, always up to date, so nobody slips through the cracks.

My Region Members

Everyone who's connected to you by location shows up here, including who HASN'T bought from you yet. It's your ready-made list of who to say hello to. 🙌

💡 *This is your warmest lead list. Use it!*

My Customers

The people who've actually bought fuel credits from you. This is where you watch your own success add up, sale by sale. 🎉

💰 *Every name here means real commission earned.*

Selling Fuel Credits Is Simple

As a Representative, you sell fuel credits directly to people. No complicated pricing, no negotiating, just one clear number.

\$1.00

PER FUEL CREDIT

Clean, simple, easy to explain to anyone. 😊

1

You sell credits to your customer.

2

There's a short cancellation window, just a normal safety step.

3

Once it clears, it becomes a real deposit straight into their DieselVest Africa balance.

HERE'S THE GOOD PART

Your Commission: 5% on Every Sale 💰

Simple, fixed, and instant. Let's see what that looks like in real numbers.

Let's say you sell \$500 worth of fuel credits to a customer

500

CREDITS SOLD (\$1.00 EACH)

5%

YOUR COMMISSION RATE

\$25

STRAIGHT TO YOUR WALLET

🎉 *That \$25 lands in your Commission Wallet immediately, ready to withdraw whenever you like.*

THIS PART IS IMPORTANT

Your Commission Wallet Is Always Yours

This isn't mixed in with your regular balance, your ROI, or your referral earnings. It's a completely separate wallet, built just for what you earn as a Rep.

Fully Separate

Never mixed with your regular balance, ROI, or referral earnings.

Its Own Withdrawal Page

A dedicated page just for your commission, simple to find, simple to use.

Always Withdrawable

Immediately, every time, no matter what's happening with your own allocation.

 *No waiting for your own investment status to change. This money is simply yours, the moment you earn it.*

Want to Invest Using Your Own Credits?

Totally possible! There's just one small extra step compared to a normal deposit, and it's there to keep things fair for everyone.

1

You choose to activate your own allocation using credits instead of a normal deposit.

2

It doesn't start immediately. It goes into a pending state, waiting for a quick admin review.

3

While it's pending, no ROI accrues yet, and no contract is created. This is completely normal, not a problem!

Why the wait?

A quick, fair check on every credit-funded allocation, so the system stays honest for everyone using it.

EITHER WAY, YOU'RE COVERED

What Happens Next?

If it's approved

It starts earning from that exact moment. Your daily ROI kicks in right away, just like any other active package. 🎉

If it's declined

Your credits are refunded back to you in full. No loss, no hassle. You can simply try again whenever you're ready.

 *Curious why an allocation isn't earning yet? It's almost always simply waiting on this quick review.*

One Important Nuance

If you activate your own allocation using credits, here's exactly what does and doesn't happen:

You still earn your own daily ROI

Completely normally, exactly like a regular allocation, once it's approved.

It won't earn commission for your upline

It won't generate referral or rank commission for your sponsor or anyone above them, since credits may be a free or company-issued allocation, not real invested capital. This applies even if your own sponsor is a Rep too.

What If Things Ever Change?

We want you to feel secure taking this on, so let's be upfront about this from the start.

Rep status can only be removed by our admin team, and only for a genuine reason, like a rule violation.

It's never sudden or arbitrary, and it's never something that happens because business was quiet for a while.

And here's the important part: if that ever happens, everything you've already earned stays exactly yours. Your Commission Wallet balance is never touched. You simply continue on as a regular DieselVest Africa member, with everything you've built still intact. 👍

KEEP THESE IN MIND

A Couple of Quick Rules 📌

Always in USD

Credit sales and your Commission Wallet always work in US Dollars, deliberately never affected by any local currency toggle. No confusion, no surprises.

Never Locked

Your sales commission is never subject to the locked-bonus rule that applies to some other earnings. It's yours, plain and simple.

READY WHEN YOU ARE

How to Apply

Head to the Vacancies page, anyone can read it, no login needed. Applying just needs you to be logged in. You'll find it in your sidebar, or directly at the application page.

WHAT TO HAVE READY:

- ✓ The region or city you'd represent
- ✓ A bit about your background, network marketing or community leadership is ideal
-   **A link to a group or community you lead, and please make sure it's active! This is the part we look at most closely.**
- ✓ An optional branch or office address, if you have one
- ✓ A FICA or identity document
- ✓ A screenshot of your current network stats

 Every application is read personally by our team, never an automatic decision. If it looks like a good fit, we'll reach out to talk through commission terms and territory with you directly.

IS THIS YOU?

What We're Looking For

A real, active community

Network marketing experience or community leadership, a group of people who already trust you.

Genuine crypto understanding

You'll be guiding others through it, so you should be comfortable with it yourself first. This one matters. 🧠

People skills, more than tech skills

Warmth, patience, and the willingness to explain things simply, again and again if needed.

A helpful, honest spirit

The best Reps genuinely want to see the people around them do well, not just make a sale.

💡 *Fun fact: many of our Reps actually joined because another Rep brought them in. You won't be doing this alone.*

Ready to Bring DieselVest Africa to Your Community? 🌟

If you've got a community that trusts you, a genuine understanding of how this works, and a real desire to help people get started the right way, we'd love to hear from you. 🙌

Apply on the Vacancies Page

💡 *Questions along the way? Ask Asante, right inside the platform, any time.*
